

Baby Freddie Brook

Freddie's progress has been followed quite frequently over the past eight months by consultants, regarding his mental and physical development—since there was a scare of potential minor brain damage.

So far, there has been no developmental issues and in fact, he is quite forward with his progression.

At eight months old now, he is crawling and nearly walking. Freddie has been checked regularly regarding the holes in his heart. These have closed up and he now has a fully functioning heart, thanks be to God.

The consultants and nurses who worked on him when he had a cardiac arrest at birth are amazed with his progression.

They will continue to monitor him up until he is two years old, but so far, with the many prayers being offered by you, Freddie has beaten all the odds!

Thank you most sincerely for all your prayers and concern, it is greatly appreciated.

I would also like to thank you for your prayers for myself; your cards; gifts and generosity at Christmas Time.

Holy Mass will be offered for your intentions.

Thank you

Holy Michael, the Archangel defend us in the day of battle.

Be our safeguard against the wickedness and snares of the Devil. May God rebuke him we humbly pray and do thou O Prince of the Heavenly Host by the power of God thrust down into hell, Satan and all the other wicked spirits who wander through the world seeking the ruin of souls.

Amen.
